

# SUPERYACHT BUNKERING | NORTH EUROPE

## GUERNSEY & JERSEY

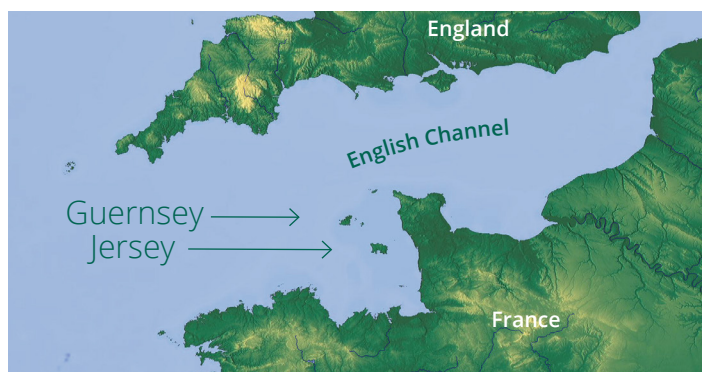

Rubis has one of the largest global networks as 'physical suppliers' in marine bunkering.

Here at Rubis Channel Islands we cover the English Channel, supplying fuels direct to yachts in Guernsey and Jersey.

Rubis Channel Islands has the superyacht bunkering expertise of the region and imports, stores and distributes its own fuel. So we can provide full assurance of quality on product and supply.

Our yacht fuel is always Premium Marine, MARPOL compliant, bio free (no added FAME, as per ISO de-minimis), Ultra Low Sulphur Diesel (less than 10ppm), Automotive Grade to BS EN590. Supply is of continuous flow to minimise duration of bunkering.

### Why Superyachts stopover in Guernsey and Jersey?

The Channel Islands are self-governing and as such have their own tax regimes by agreement with the UK.

Therefore Rubis is able to offer Superyachts some of the lowest fuel and lubricant prices across Europe.

Wholesale low tax/duty paid Premium Marine ULSD/AGO no added FAME diesel to all vessels, Private and Commercial (also Jet-A1, Unleaded & Lubes)

Rubis is an approved supplier of Shell lubricants at low prices (bulk supply by pre-order)

Various all tide commercial berths are available for superyachts of 25m – 130m+ LOA and can be arranged through Rubis

No VAT on services and supplied products or purchases and imported items for collection

A visit to Guernsey or Jersey offers the opportunity of clearance from UK and EU Fiscal Areas

Strategic geographical location, western approach to English Channel adjacent to Cherbourg and yacht transit routes
